### **CLUB MEMBER HIGHLIGHTS**

The May club highlight is from Paul and Lurene Mogler Denke.

Graduating from high school in the late 70's, we missed out on the muscle car and hot rod hay day. My first driving experience came in dad's 1966 GMC farm pickup with four speed. I got my own car my last couple years of high school, a 1966 Dodge Dart. I remember always admiring other people's hot rods but never really had one of my own until going to school in Watertown. I got a 1972 Duster to replace a car I had an accident with.

I met Lurene at Watertown Vo-Tech in 1980 and we got married. We had the Duster at first but found a couple years later, it wasn't very good for two baby seats in back. So we sold it (big mistake) and found a four door car that was more "practical".

About 25 years later when both boys were fully grown, we found a 1966 Plymouth convertible at a car show and shortly after that we joined the Street Masters. Now we drive the Plum Crazy Challenger RT and have lots of fun with our new "old" car. Nothing brings us more joy than to cruise around and going to car shows to look at other cool cars and listen to the stories others tell. Thank you Street Masters for getting us out cruising again.
